**ADDENDUM No. 2
REQUEST FOR TENDER No. 147-2019
CONTRACT No. 19ECS-TI-16MR**

**For: Milner Avenue West from Progress Avenue to Neilson Road – Major Road
Reconstruction**

CLOSING DATE: JUNE 26, 2019 12:00 NOON (LOCAL TIME)

Please refer to the above Tender Call document in your possession and be advised of the following:

I. QUESTIONS & ANSWERS

- Q1.** What item will be used for the removal or excavation of the subbase to accommodate the new Granular A and Granular B items 45 & 46?
- A1.** The removal of subbase to accommodate the new Granular A and Granular B is included in the new Granular A and Granular B items 45 & 46.
- Q2.** Would the city please advise of the anticipated location of excavation for Pay item 27 – General Excavation. It appears all of the excavation is to be lumped into the associated item. Therefore this item is used to regrade the existing area (i.e. cutting back slopes, etc.) however, nothing is shown on the drawings.
- A2.** The gutter grades are being refined as part of the reconstruction (new gutter grades will be provided and laid out by the City). Where the proposed gutter elevation is lower than the existing gutter elevation, the volumetric difference between the existing top of pavement and the proposed top of pavement will be paid under General Excavation Item 27.
- Q3.** Are bidders to assume all excavated soils to be considered non-hazardous, impacted above table 3?
- A3.** Contaminated soils are present in the sub-grade. As the depth of excavation is above the subgrade, these soils should be undisturbed.
- Q4.** Would the city please clarify the Basis of Payment for SP#13 – Soft Spot Repairs: Please clarify that materials containing exceedances of Metal and Inorganic Parameters will be paid as an extra to the unit rate provided at time of tender.
- A4.** Should materials containing exceedances of Metal and Inorganic Parameters require excavation, this will be paid as an extra to the unit rate provided at time of tender.

- Q5.** Please clarify under which circumstances Item 27 – General Excavation and Item 28 – Additional Excavation for Soft Spot Repairs will be paid. SP #7 and #13 are unclear.
- A5.** The gutter grades are being refined as part of the reconstruction (new gutter grades will be provided and laid out by the City). Where the proposed gutter elevation is lower than the existing gutter elevation, the volumetric difference between the existing top of pavement and the proposed top of pavement will be paid under General Excavation Item 27.
- If upon excavation of the existing roadway to the top of subgrade it is decided that additional excavation is required, this will be paid under Additional Excavation for Soft Spot Repairs Item 28.
- Q6.** Please identify the desired lift thickness for Item 47 - SP19.0?
- A6.** Required lift thickness for Item 47 - SP19.0 is 95mm.
- Q7.** Please advise if paid duty police will be required for the duration of the reconstruction at/around Burrows Hall Blvd. If so, please provide cash allowance.
- A7.** Traffic Control is an all-inclusive item. All costs are included in Bid Item 5

Should you have any questions regarding this addendum contact Brenda Duffley by email at Brenda.Duffley@toronto.ca.

Please attach this addendum to your Request for Tender document and be governed accordingly. Bidders must acknowledge receipt of all Addenda on the space provided on the Tender Call Cover Page as per the Process Terms and Conditions, Section 1, Item 10 - Addenda, of the Tender Call document. All other aspects of the Tender remain the same.

Yours truly,

Sabrina Di Pietro
