Addendum No. 1
Tender No. 136-2018

Re: The construction of TTC accessibility ramps, sidewalk and road repairs, Toronto & East York District, Wards 14, 18, 19, 20, 21, 22 and 29.

Closing Date: 12:00 P.M. Noon (Local Time), May 16, 2018

Please refer to the above Tender Call document in your possession and be advised of the following:

1. **General Clarifications To Questions From Bidders**

   Q1. SS 5 of this tender stipulates that all works in this SS shall be paid under the item as a lump sum. The bid form does not have this item.

   A1. It is SS.5., not SS.1. Please change SS.5. As follows:

   **SS.1. TRAFFIC CONTROL**

   The traffic control measures required to facilitate the work performed under this Contract will vary with staging of the work.

   The Contractor shall be responsible for all signing and traffic control required as outlined in Toronto Specification TS 1.00 and for maintaining up to date Traffic Control Plan on site at all times.

   Signage requirements, other than specified herein, shall be in accordance with the latest edition of the Ministry of Transportation (OTM) Book 7 Manual "Traffic Control Manual for Roadway Work Operations", (OTM) Book 6 Manual "Warning Signs", (OTM) Book 15 Manual "Pedestrian Crossing Facility", and (OTM) Book 18 Manual "Cycling Facility". Where bicycle lanes are present, the contractor shall be required to post signs stating "Cyclists to merge with traffic". All cost for traffic control shall be included in the unit bid prices.

   When pedestrians are to be directed onto the closed traffic lane to facilitate the construction of the sidewalks, or for any other reason, the Contractor shall control the pedestrian traffic by use of interlocking metal barriers and TC-54 Barrels with rail and/or tape.
Pedestrians shall be fully restricted from the work zone and all vehicular traffic by the use of interlocking metal barriers. The Contractor shall provide openings in the metal barrier at designated crossings only, or as directed by the City.

The Contractor shall supply sufficient steel crowd control barriers to protect pedestrians on both sides of a work zone, for the duration of the contract and regardless of the number of times the work zone is moved. The barriers will be removed or relocated upon the restoration of sidewalk areas to pedestrian traffic or as required. The type and size of steel barriers shall be as specified under the Ministry Book 7, Ontario Traffic Manual or as directed by the Ministry of Labour.

Police services will be required daily to ensure safety where TTC streetcars exist. Pedestrians redirected to walk on the travel portion of the highway where the streetcar right-of-way is the only available lane, then Police Services must be present at all times of the construction.

Request for removal of the crowd control barriers by anyone other than the City, will be at the contractors own expense, no other additional payments will be entertained.

The Contract Administrator reserves the right to require the Contractor to replace any signage found to be unsafe, defaced, lost or damaged without delay and without cost to the City of Toronto. Failure to adhere to the above conditions will result in a written warning on the first incident. Subsequent incidents will result in a total shut down of work, without compensation until all conditions are met, or to the satisfaction of the Contract Administrator.

The contractor shall submit a Road Disruption Activity Reporting System Notification (RoDARS) and coordinate the working hours with the Work zone Traffic Coordinator for all work carried out on all roads. A copy must be submitted to the contract administrator.

Q2. The drawings for the above mentioned tender refer to drawing G60-241-C0005 for general notes, but no drawing with that number is included in any of the volumes. Can you let me know where I can find that?

A2. The Drawing # for general notes is G60-241-C005 instead of G60-241-C0005, it is included in 336-2018 G60-241 CONTRACT DRAWING VOLUME1.

All other information regarding the call document is unchanged. All other terms and conditions remain the same. Should you have any questions regarding this addendum contact Michael Porcarelli, Corporate Buyer, at email Michael.Porcarelli@toronto.ca. Please attach this addendum to your Request for Tender document and be governed accordingly. Bidders must acknowledge receipt of all addenda on the space provided on the Tender Call Cover Page as per the Process Terms and Conditions, Section 1, Item 9 - Addenda, of the Tender Call document. All other aspects of the Tender remain the same.

Yours truly,

Joanne Kehoe,
Manager, Construction Services,
Purchasing & Materials Management
