**ADDENDUM NO. 3
REQUEST FOR PROPOSAL NO. 9117-18-7078
FOR: INFOWORKS BASEMENT FLOODING MODEL STUDIES GUIDELINE UPDATE**

CLOSING: 12:00 NOON (LOCAL TIME) ON SEPTEMBER 19, 2018

Please refer to the above Request for Proposal (RFP) document in your possession and be advised of the following:

I. QUESTIONS AND ANSWERS:

Q1. Will the selected consultant be responsible for hiring the other consultants required to solicit suggestions on the revised guideline and attend the workshops mentioned in Section 2.3.2 (Task 2 and Task 4)?

A1. Refer to Section 5.4.2.a.1 of the RFP.

Q2. Table 5-1, item A.2 and item A3 require costing for model tests and sensitivity runs as required and based on Appendix E2. For purpose of costing, can the City define the number of sensitivity runs to be performed (for e.g, 20 simulations in each task)?

A2. The number of sensitivity runs to be performed shall be determined by the successful proponent at the outset of the project. For costing purposes, the Proponent is to assume 25 simulations for each of Item A.2 and Item A.3 as part of the base scope of work, for a total of 50 simulations.

Q3. Appendix E.2 has reference to water quality solutions like Bio retention, exfiltration, 2D, and guidance of LIDs for water quality and to implement green street guidelines. Does the City intend to have these components evaluated as part of the scope of work? If yes, can these be added as a new chapter?

A3. The Consultant is expected to address the way water quality and water quality solutions are modelled and pollutant loadings calculated. The Consultant will have the flexibility to add new chapters or to change the structure / table of contents of the new guideline.

Should you have any questions regarding this addendum, please contact Aimee Yang, Senior Corporate Buyer, at (416) 397-4803 or by email at aimee.yang@toronto.ca .

Please attach this addendum to your RFP document and be governed accordingly.
